Make your mark

STATE STREET

®
We’re responsible for more than 10 percent of the world’s total assets.*

We provide financial technology, insights and solutions that help our clients safeguard and steward the investments of millions of people — strengthening markets, building communities and creating opportunities for growth.

We’re a global company with diverse people and capabilities, and a network spanning more than 100 markets. Our solutions support clients at every step of the investment process.
From front-office insight to back-office support, we work to solve our clients’ challenges and help them make the most of investment opportunities.

**Investment Servicing**
Service and support for our clients’ assets that deliver efficiencies, manage risk and keep clients focused on their core business

**Research and Trading**
Data-driven insights and technology platforms that improve our clients’ access to global financial markets

**Data and Analytics**
Data management tools, analysis and software that help clients make better investment decisions

**Asset Management**
Index and active investment strategies that help protect and grow our clients’ assets
From technology and product innovation to corporate responsibility and community development, we’re making our mark on the financial services industry.

Anticipating our clients’ need for cross-border investment support, we built the industry’s first global, multicurrency custody and fund accounting platform.

To respond to a growing appetite for indexed investments, we partnered with the American Stock Exchange to develop the first U.S.-listed exchange traded fund (ETF), which tracks the Standard & Poor’s 500 stock index.
We’ve been serving clients for more than two centuries. We owe that longevity to the commitment, expertise and creativity of our employees.

Participating in our global GIVE initiative, employees annually donate more than 100,000 volunteer hours and contribute millions of dollars to communities through our matching gifts program.

We’re challenging business as usual, championing the value of diversity on corporate boards as represented by the Fearless Girl,* and adopting science-based targets to measure and reduce our greenhouse gas emissions.

For us, success comes in the mark we make as an organization — for the industry, our clients, our communities and each other.

We’re hiring the industry’s top Information Technology talent as we implement plans to **digitize our company**. Our global expertise includes more than 500 technology patents.

Through **more than 110 employee network chapters**, team members around the world come together around common goals to create volunteer, career development and cultural opportunities.
We’re committed to providing an inclusive environment where all employees feel valued and supported.

Each of our more than 30,000 employees worldwide brings their own perspectives, experience and insights to our company.

How will you make your mark?
Leader

Can you drive strategy, influence and negotiate courageously, and manage others effectively?

Collaborator

Do you thrive in a team setting, working with colleagues from across the firm toward a common goal?
**Communicator**

Can you develop and deliver compelling messages that promote key themes and solutions?

**Innovator**

Are you future-focused, with the ability to imagine tomorrow’s big breakthrough today?
Creative Thinker and Problem Solver

Can you take complex problems or trends and simplify them to find the optimum solution?

Technologist

Do you excel at finding new ways to apply data across platforms to meet changing market and client demands?
Data Analyzer
Can you find the value in financial data and help give it meaning for our clients?

Operator
Are you driven to ensure that we’re always meeting our quality and risk management standards?
Let’s get to work
