

LINK

Streamline your trade workflow

Boost efficiency and simplify workflows with LINK — our award winning-suite of solutions that creates a digital environment where you can customize and streamline your workflows across multiple asset classes including FX, Cash, Payments and more.

LINK provides a unified, holistic “smart desktop” and “smart web” where you can create and operate easy-to-deploy, customizable trading and workflow solutions.

The bespoke, scalable trading environment offers easy access to liquidity, financing and research, so you can make better-informed decisions and focus on balance-sheet-positive actions. Additionally, the platform’s open architecture allows for seamless integration with our suite of trading solutions, third-party and clients’ internal applications through single sign-on.

GlobalLINK has a 25+ year track record of building award-winning electronic trading platforms that improve transparency, enhance trading efficiency and deliver quantifiable trade cost analysis.

Key features:

Work smarter — Monitor key systems, receive alerts and take action through a streamlined user interface

Open architecture — Enable local plug-and-play integration between applications using open-source FDC3 standards

Drive efficiencies — Build and optimize workflows based on the user journey, leveraging existing applications

Connectivity — Access to more than 400 buy-side institutions, 200 sell-side institutions and 300 custodians

Key benefits:

As a part of our suite of market-leading electronic trading platforms and solutions, LINK is a trusted partner with a long-standing reputation for delivering innovative and market-compliant pre- and post-trade solutions.

Elevated user experience

Develop new custom widgets and tiles and integrate existing native applications with LINK's modern user interface. The platform helps you monitor activity, receive alerts and take action across the trading and investment lifecycle.

Macro perspectives

Access vital insights that enhance executions related to core competencies, with analytics woven throughout LINK. Additionally, the platform offers research, compliance and post-trade settlement services in collaboration with third-party solutions that align with LINK's target market and strategy, providing you with a holistic overview of trading workflows.

Seamless onboarding

Reduce infrastructure costs by taking advantage of our scalable, intuitive design system to quickly build new solutions, functionalities, or repurpose existing features without a heavy integration burden.

Interoperability

Establish communication between integrated applications (modern or legacy, in-house or third-party) provided through FINOS-certified implementation of the FDC3 standard.

Workflow efficiency

Our customizable and multi-workspace feature ensures that the most important applications in your workflow are synchronized, saved and restored in one layout. We offer widgets and tiles displaying pertinent information to users within multiple workspaces. These workspaces appear in the "Widget Library" menu on the dashboard and can be switched between imported and exported.

Develop new custom widgets and tiles and integrate existing native applications with LINK's modern user interface

Flexible access

LINK-Desktop: Our desktop interoperability platform provides unified access to applications via a single installation, enabling seamless interaction with both desktop and web-based applications.

LINK-Web: Our web version of LINK is deployed without requiring a desktop installation and can run on any device.

Front-to-back alignment

Portfolio managers, traders and risk teams can reduce noise and create efficiencies by customizing and unifying their desktop with State Street Alpha®. The platform monitors, alerts and draws attention to key focus areas, seamlessly aligning with State Street Alpha throughout the workflow.

State Street Alpha is a fully integrated front-to-back platform that combines proven industry-leading components including Charles River Development, Alpha Data Platform, middle-office processing, and a comprehensive set of data and back-office services.

Purpose-built as an open architecture solution, State Street Alpha supports interoperability with a rich and growing ecosystem of third-party liquidity, analytics, data and application providers.

Disclaimers and important risk information

This communication is provided only to professional clients or eligible counterparties or their equivalent by State Street Bank and Trust Company or, where applicable and permissible, its bank and non-bank affiliates ("State Street"). State Street Bank and Trust Company is authorized and regulated by the Federal Reserve Board, registered with the Commodity Futures Trading Commission as a Swap Dealer, and is a member of the National Futures Association. State Street Bank International GmbH ("SSBI") is regulated by the European Central Bank ("ECB"), the German Federal Financial Supervisory Authority ("BaFin") and the Deutsche Bundesbank. Details about the extent of SSBI's regulation by the ECB, the BaFin and Deutsche Bundesbank are available from us on request. Products and services described herein may not be available in all jurisdictions or through all State Street entities. Activities described herein may be conducted from offshore. Information provided is of a general nature only and has not been reviewed by any regulatory authority.

This communication is intended for general marketing purposes, and the information contained herein has not been prepared in accordance with legal requirements designed to promote the independence of investment research. It is for clients to determine whether they are permitted to receive research of any nature. Market commentary provided by trading desks is not investment research. This communication is not intended to suggest or recommend any transaction, investment, or investment strategy, does not constitute investment research, nor does it purport to be comprehensive or intended to replace the exercise of an investor's own careful independent review and judgment regarding any investment decision.

This communication is not intended for retail clients, nor for distribution to, and may not be relied upon by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to applicable law or regulation. This communication or any portion hereof may not be reprinted, sold or redistributed without the prior written consent of State Street. This communication and the information herein does not constitute investment, legal, or tax advice and is not a solicitation to buy or sell securities or any financial instrument nor is it intended to constitute a binding contractual arrangement or commitment by State Street of any kind. The information provided does not take into account any particular investment objectives, strategies, investment horizon or tax status.

The views expressed herein are the views of State Street as of the date specified and are subject to change, without notice, based on market and other conditions. The information provided herein has been obtained from sources believed to be reliable at the time of publication, nonetheless, we make no representations or assurances that the information is complete or accurate, and you should not place any reliance on said information. State Street hereby disclaims any warranty and all liability, whether arising in contract, tort or otherwise, for any losses, liabilities, damages, expenses or costs, either direct, indirect, consequential, special, or punitive, arising from or in connection with any use of this document and/or the information herein.

State Street may from time to time, as principal or agent, for its own account or for those of its clients, have positions in and/or actively trade in financial instruments or other products identical to or economically related to those discussed in this communication. State Street may have a commercial relationship with issuers of financial instruments or other products discussed in this communication.

This communication may contain information deemed to be forward-looking statements. These statements are based on assumptions, analyses and expectations of State Street in light of its experience and perception of historical trends, current conditions, expected future developments and other factors it believes appropriate under the circumstances. All information is subject to change without notice.

Participating in trading any financial instrument, including but not limited to foreign exchange, equities, futures, fixed income or derivative instruments, or investments in non-liquid or emerging markets, or digital assets, or participating in securities lending, repurchase transactions or other collateral services present risks, which may include but are not limited to counterparty, collateral, investment loss, tax, and accounting risks. Where applicable, returns may increase or decrease as a result of currency fluctuations. Derivatives may be more volatile than the underlying instruments. Certain foreign exchange business, including spot and certain forward transactions, may not be regulated in all jurisdictions. Past performance is no guarantee of future results.
