

State Street Trust and Banking Co., Ltd.

Company Profile

About State Street Corporation

Whether we are helping investment companies operate more effectively, providing valuable market insights or launching innovative investment products, we are focused on cultivating collaborative partnerships.

As one of the world's largest servicers and managers of institutional assets, our success depends upon the success of our stakeholders — our clients, employees, investors and the communities we serve. Our goal is to help these stakeholders realize the best possible outcomes for the future.

- 2023**
Expanded the Fukuoka office’s capabilities as an operation center for clients in the APAC region

Our primary business

Trust services

Client needs are becoming increasingly sophisticated as asset management continues to evolve. We support a wide range of value-added services through our global network of experts and powerful technology. Along with conventional trust services, we provide flexible support for trust creation in foreign currencies, emerging growth markets and alternative investments, as well as additional areas that have shown rapid growth.

Outsourcing

We've supported fundamental business operations for asset management firms and life insurance companies for over twenty years. By strategically incorporating outsourcing into their business model, clients can reduce staffing costs and system investments, enabling them to focus on core businesses.

Global custody

As an agent of SSBT and State Street Bank International GmbH (SSBI), we provide global custody services in Japan for institutional investment firms. SSBT enters into sub-custody agreements with local banks. Our streamlined processes help institutional investors make informed investments in global markets without having to enter into individual country agreements.

Offshore fund services

As a specialist service provider for offshore funds including Cayman funds, we provide end-to-end support across the fund lifecycle through deep experience in the Japanese market combined with global service in Japanese. Our clients benefit from seamless support in the fund lifecycle. NAVs, contract notes and query resolutions delivered during Japan business hours via our truefollow-the-sun model.

Portfolio solutions

We conduct marketing and sales activities with respect to currency management offered by overseas units of State Street to clients in Japan. In addition, we offer transition management services, including planning, trading and performance measurement, under a discretionary investment management agreement entered into directly with each client in Japan, and support agency trading by offering communication support.

Financing solutions

By introducing agency lending services provided from SSBT and overseas group companies to Japanese customers and acting as an intermediary, we also serve as a liaison — offering communication support and introducing prime and other services that meet Japanese customers' financing needs.

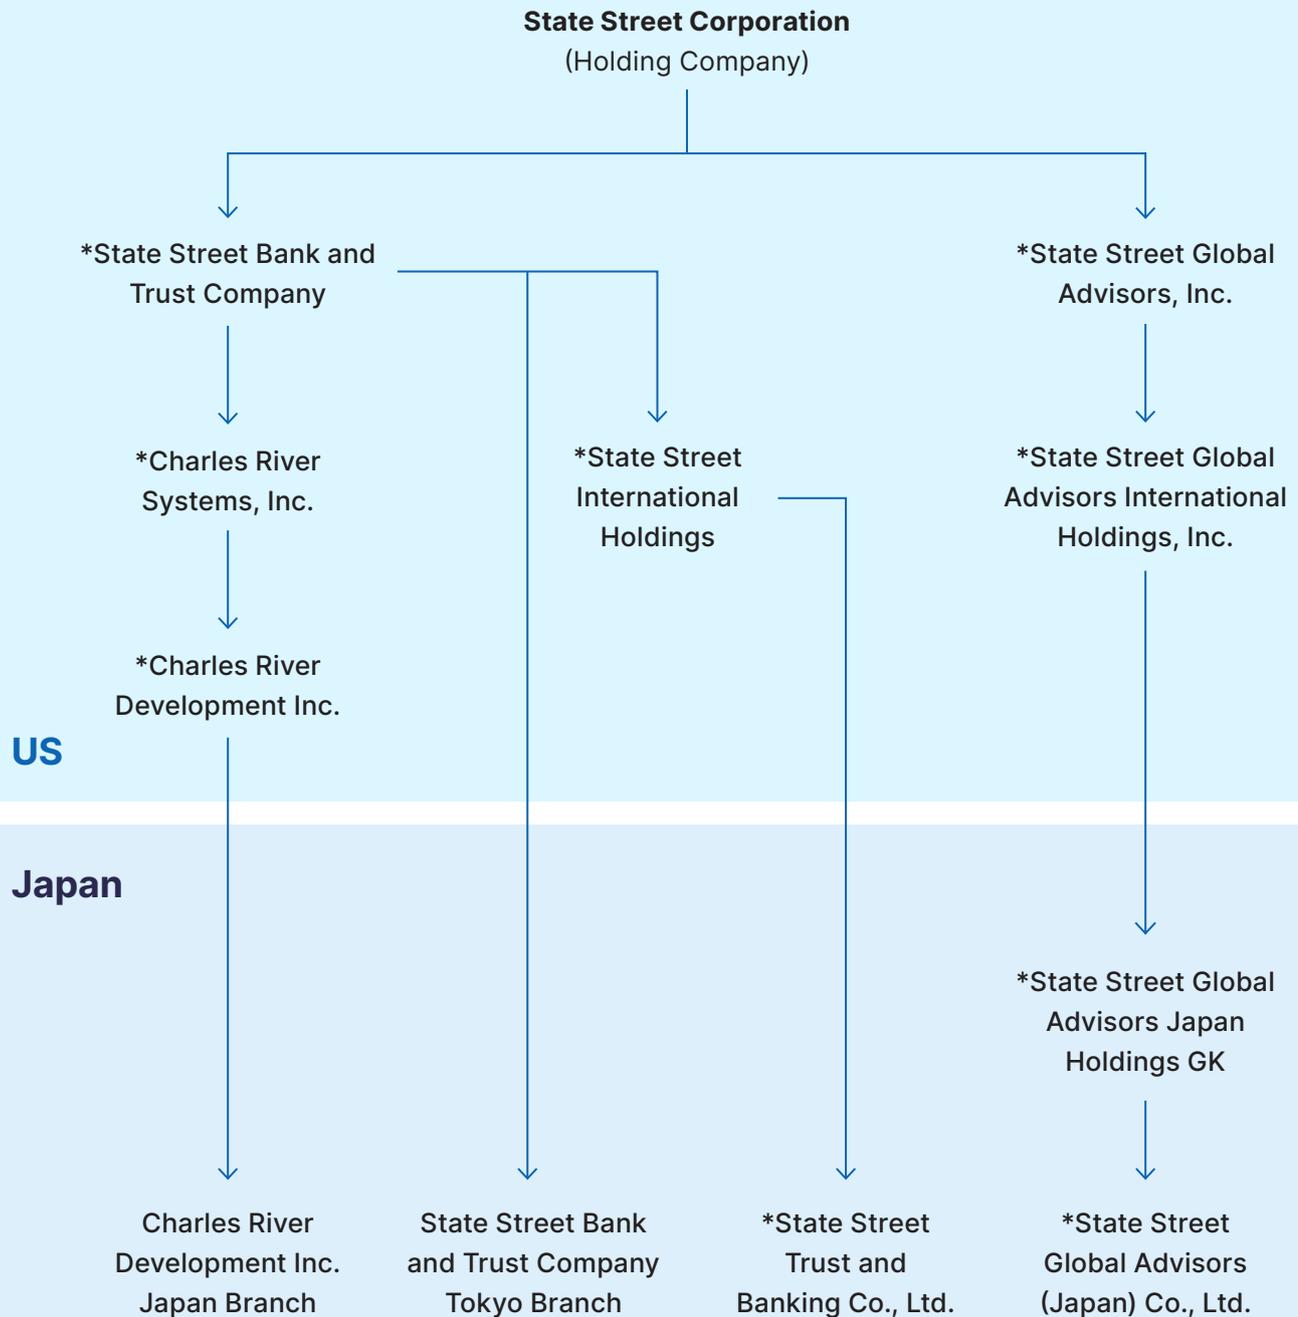

GlobalLINK

We act as a liaison between our Japanese customers and affiliates overseas, providing solutions for online foreign exchange (FX) and precious metals trading platforms. With our industry expertise and global market knowledge, we simplify and automate the entire FX trading process from pre-trade through execution to post trade, enhancing efficiency and productivity of trading lifecycle.

State Street Alpha

State Street Alpha brings together our clients' real-time data intelligence across the investment lifecycle to help them make better decisions and deliver growth for their clients. With built-in flexibility and scalability, State Street Alpha enables our clients to manage any assets in any market and streamline their day-to-day processes — helping to facilitate innovation, better inform investment decisions, optimize returns and streamline business operations.

Japan structure

*Fully owned subsidiary

Our culture

Building a strong, inclusive culture empowers our employees to thrive. Guided by our five culture traits — choose to own it, break through silos, deliver results with integrity and speed, do better every day, and care for our colleagues, clients and community — we foster an environment where everyone can excel.

Inclusion and diversity

We celebrate the diversity of our 50,000+ colleagues worldwide and honor the unique perspectives shaped by their lived experiences.

With a strong commitment to embedding inclusion and diversity into our corporate culture, we're embracing our colleagues' unique identities, experiences and perspectives, and fostering an inclusive environment where everyone feels a sense of belonging.

Japan activities

In Japan, we work with local non-profit organizations and non-government organizations focused on activities to support education and employability of youth, women and people with disabilities. Our employees provide assistance in the form of grants and volunteerism, such as teaching English, and cleaning the areas we work and live in.

We have four employee networks: Culture, Environmental Sustainability, Gender Diversity and the Professional Women's Network. These groups also help to strengthen employee engagement and provide talent development opportunities within the organization.
