

# BestX<sup>®</sup>

Powering confident, data driven execution decisions

**BestX<sup>®</sup> is the industry's leading independent, multi-asset transaction cost analysis (TCA) platform — trusted by more than 200 of the world's largest asset managers, hedge funds, sovereign wealth funds and banks.**

Designed to bring greater transparency to execution quality across foreign exchange (FX), fixed income, equities and digital assets, BestX delivers a holistic, defensible and data-rich view of trading performance.

## Key benefits:

Today's trading landscape demands greater transparency, richer data and stronger control. BestX provides a single, truly independent view to evaluate execution quality, benchmark counterparties and enhance decision making across pre trade, post trade and workflow automation.

Part of the GlobalLINK<sup>TM</sup> suite but engineered for independence, BestX leverages open architecture to deliver results that are agnostic of counterparty or venue, creating a level playing field to compare and contrast performance.

## Key features:

Independent and autonomous — provides neutral insights free from conflicts of interest

Deepest data in the TCA space — ingesting more than one billion market price updates every day

Global, multi-asset coverage — 1,800+ FX pairs, major benchmarks and leading liquidity venues

Open architecture — integrates seamlessly with OMS/EMS systems, custodians, liquidity providers and internal platforms

Automated workflows — supports exception reporting, best execution oversight and scheduled reporting

## **Pre-trade analysis**

Set clear objectives with scenario based modeling and predictive cost estimates. Compare execution strategies and counterparties using proprietary BestX models — fully linked to post trade performance for cohesive ex ante and ex post evaluation (buy-side only).

## **Post-trade analysis**

Ingest data from any venue (OMS/EMS/ custodian) and analyze execution quality through intuitive visual dashboards, configurable metrics and bespoke reporting. Export results as PDF, CSV formats or scheduled automated reports.

## **Peer analysis**

Buy-side firms can choose to opt in to access anonymized, aggregated peer benchmarks to understand performance relative to industry participants and uncover areas of improvement.

## **Benchmarks**

Create custom benchmarks aligned to your execution policy, codify your firm's methodology directly into BestX and track adherence automatically.

## **Exception and regulatory reporting**

Meet regulatory demands efficiently through automated MiFID II reports, threshold based exception alerts and complete workflow audit trails. BestX is validated by an independent legal opinion from Linklaters LLP, underscoring the integrity of its framework.

## **Installation and support**

BestX requires no installation as it is easily accessible via a web browser. Activate existing data feeds on day one. An in-platform help center and 24x7 global support offer a seamless user experience.

## **Innovation at our core**

BestX continues to drive leadership in the TCA market with case studies, research, white papers and continuous enhancements. Through their input, our contracted clients actively shape our research and development agenda and directly influence our product roadmap, ensuring BestX evolves with the needs of modern trading teams.

# Award winning excellence

BestX's consistent industry recognition underscores our commitment to innovation, transparency and measurable execution excellence.
