

# BestXecutor<sup>SM</sup>

Execution powered by insight

**Trade execution decisions powered by integrated analytics for consistent, transparent and optimized FX trading.**

A first-of-its-kind decision augmentation tool, BestXecutor<sup>SM</sup> uniquely integrates transaction cost analysis (TCA) with a robust foreign exchange (FX) trading platform to optimize execution at every stage of the trade.

BestXecutor embeds real-time and historical TCA from BestX<sup>®</sup> with our FX Connect<sup>®</sup> trading platform, helping you deliver a standardized, data driven execution framework that enhances consistency, strengthens transparency into execution quality and significantly reduces execution costs.

This intelligent and standardized execution selection process empowers traders to execute with confidence, precision and repeatable results.

## Key features:

Integrated desktop with single sign-on access to a unified platform across BestX, FX Connect and LINK

System driven selection for consistent, defensible decisions with reduced operational risk

Pre-trade transparency for global best execution standards

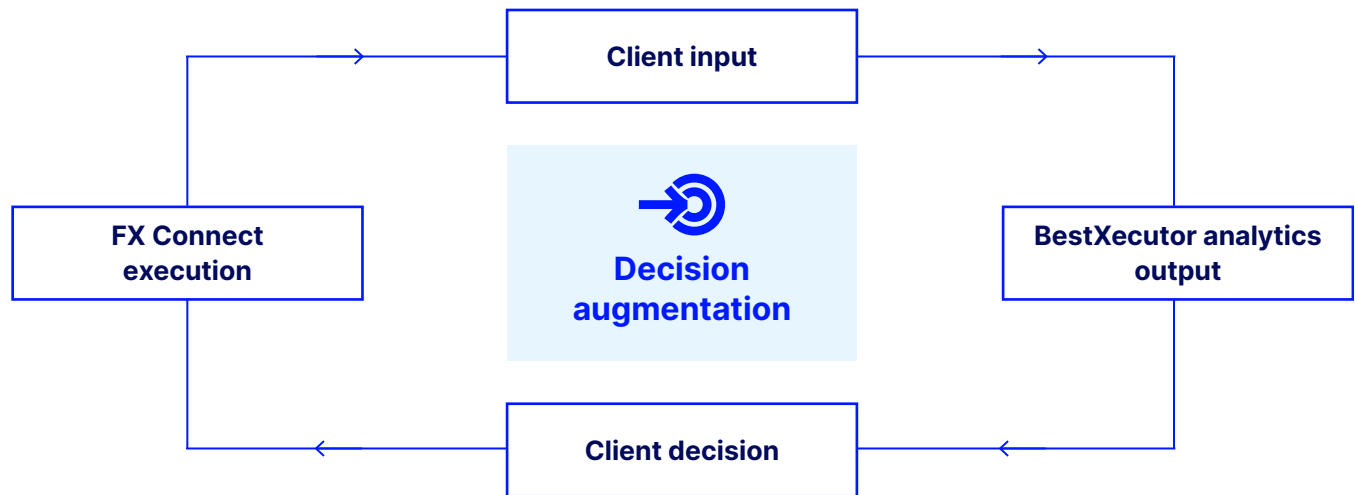

Custom panels and analytics adapt to each user's trading history

Unified oversight lets you evaluate, optimize and execute within one consolidated workflow

Integrating BestX's pre-trade analytics directly into FX Connect via LINK, BestXecutor brings objective, transparent and automated execution decisioning into the trader's workflow —

turning every trade into an opportunity for measurable improvement. This approach is a market first and reinforces LINK as the unifying platform for analytics, market data and execution.

## Key benefits

### Streamlined pre-trade decision-making

Our data-driven insights and client-specific counterparty setups allow for more timely and informed trading decisions.

### Unified oversight

Evaluate, optimize and execute all within one consolidated workflow.

### Reduced operational risk

System driven selection ensures consistent and defensible decisions.

### Regulatory alignment

Pre trade transparency supports global best execution expectations.

### Client specific customization

Panels, preferences and analytics tailored to each user's trading history.

### Workflow integration

Seamlessly connect with existing trading workflows for a streamlined trading experience. By integrating with our LINK platform, we optimize trade workflows, focusing on the client journey and leveraging existing application integrations.

### **Industry-leading analytics**

Augment your trade decisions with BestX data and insights at the point of trade. BestX consumes and stores over one billion price updates per day, providing accurate TCA that is underpinned by comprehensive, representative and independent market data sources.

### **Flexible counterparty set-up**

Choose from client-specific counterparty setups to tailor the platform for your custom needs. BestXecutor gives you the flexibility to control your counterparty setup and manage it based on BestX factors and your existing relationships.

### **Versatile application**

Tap into our BestXecutor tool that works effectively for both Algo and Request for Quotation (RFQ) trading, providing a comprehensive solution for buy-side traders. However you trade, BestXecutor is designed to increase transparency and give you greater control over your execution costs.

**BestX consumes and stores over one billion price updates per day, providing accurate TCA that is underpinned by comprehensive, representative and independent market data sources.**
